

## Agenda:

- Finish Groovy Dhruvi's current event's discussion
- Discuss global winds diagram HW
- Practice FRQ

## Bell Work

1. What is thermohaline circulation?
2. What is the ITCZ?

# GROOVY DHRUVI DISCUSSION!!!

## Discussion Questions

1. How do you think we can mitigate the effects of urbanization since we live in a relatively populous and similar area?
2. Do you think more infrastructure or ideology affects the features of the urban areas?
3. How can we get people to become more mindful of their living space and aware of the implications of urbanization?
4. Where/how could we relocate people if it were a plausible solution?
5. Is it possible and if so how can we get urban corporations to become aware of their environmental and socioeconomic impact on the environment and its inhabitants and reform their practices? If it's not possible how can we be more sustainable?
6. Do you see a future with or without urbanization?

# Global Winds Diagram HW – Due 11/5

## GLOBAL WINDS DIAGRAM HOMEWORK (100 POINTS)

*Using the image of the globe below, label the following wind patterns:*

- 0°, 30°, 60°, 90° Latitude

- Polar cells

- Westerlies

- Hadley cells

- Northern trade winds

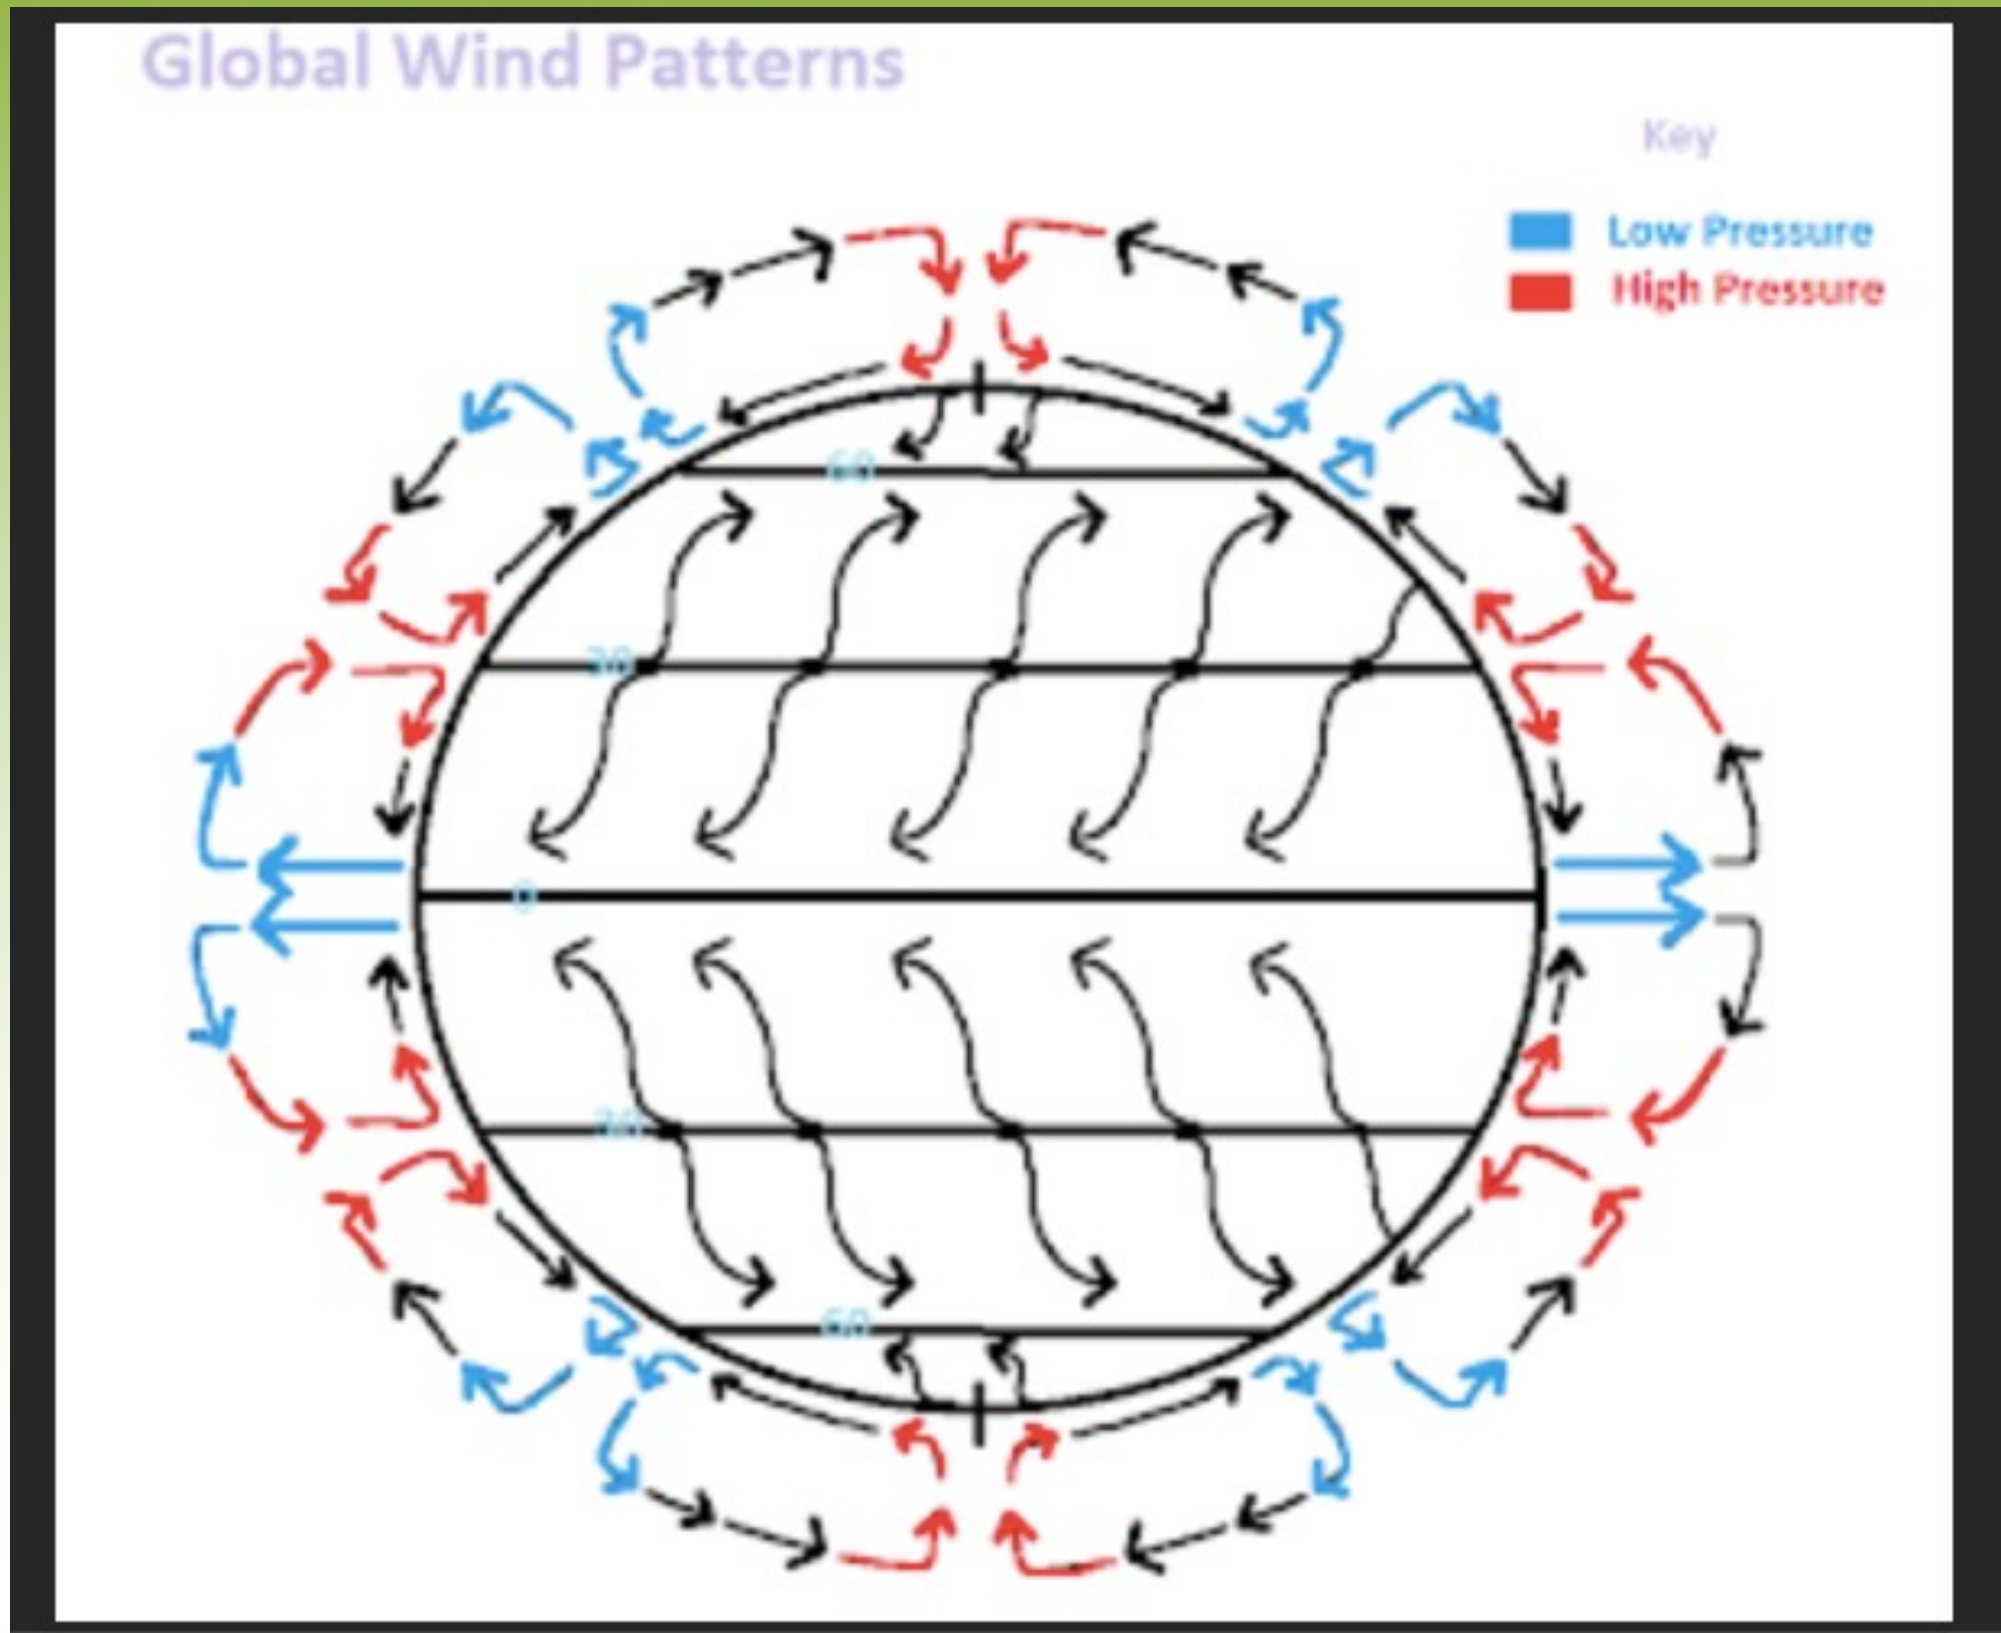

- Easterlies

- Ferrell cells

- Southern trade winds

PRACTICE FRQ!!!

**WHEN THERE IS 1 MINUTE LEFT  
FOR FRQ'S**

**AND YOU STILL DON'T KNOW WHAT  
IT IS ASKING**
